Event Play:

- Each player plays his own ball on every hole.
- Record each player's **gross (actual) score** for each hole in the online scoring system.
- Player's net score for each round will be determined by subtracting the player's Event Handicap from his total gross score for the round.
- The online scoring system will calculate/determine each player's gross and net total scores for each individual round, but it will NOT calculate the 2-day totals. The 2-day totals will be calculated by the Scoring Committee at the end of round 2.
- Please see Appendix I for bad weather policy.
